

SLIDE WORK ORDER FORM

1. Please complete this form, sign + date and include the original signed copy along with your slide.
2. Once we receive your slide, our billing department will contact you to confirm and for payment prior to beginning custom work.
3. Once custom work is completed, we will contact you prior to shipping back to you.

Ship your slide to:

**DV8 Dynamics, Inc.
18520 Pasadena St.
Suite B
Lake Elsinore, CA 92530**

We suggest you insure your slide for it's replacement value and add tracking.

Please be sure to let us know before you ship us your slide.

Please pack your slide well to insure it is not damaged during shipment to us.

Date: _____

Full Name: _____

Address: _____

BUILD REQUEST

Please circle options below. If what you need is not listed, please write in your request below in the "Customer Notes" area below. We will contact you after receiving your slide to confirm all details and invoice you.

SLIDE CUT STYLE:

RAPTOR ONE PORTAL

OPTIC SEAT CUT:

Vortex Venom | Vortex Viper | Burris Fastfire III

Please note Optic seats will overlap the Round in Chamber Indicator on XD/XDm 9mm & .40SW models and on all XDs calibers. Trijicon RMR seat not compatible with Springfield factory slides.

FINISH:

- NO FINISH + BEAD BLAST
(leaves a textured matte surface for you to finish coating)
- STANDARD CERAKOTE +\$55 (may add up to 2 weeks additional lead time)
Armor Black | Burnt Bronze | Raptor Green |
- CUSTOM CERAKOTE +\$75
(may add up to 2 weeks additional lead time)
*All Cerakote colors can be browsed here (H-Series only)
<http://www.cerakoteguncoatings.com/finishes/>

Specify custom color and #: _____

**CUSTOMER NOTES /
SPECIAL REQUESTS:**

Warranty & Policies & Customer Agreement

- Please do not ship your lower (the pistol grip) section which is an FFL item. Internal parts can remain if you cannot remove them yourself (we will remove prior to machining and re-install before returning to you unless otherwise requested).
- We must receive your slide within 2 weeks of placing your order to lock-in any special pricing quoted you.
- In the event your slide is damaged during custom work or if you are not absolutely blown-away with the work complete, DV8 Dynamics, Inc. will exchange your factory slide with our comparable custom billet slide cut design of the same size and model. We guarantee the quality of our custom billet slides to be that of factory or better.
- DV8 Dynamics cannot guarantee a set amount of time for custom work completion (lead-times can run up to 4 weeks not including Cerakote, but usually much less--please inquire current lead-times), however, we make every effort to complete your work order as soon as possible and will try to inform you if extended lead-time may occur. We perform work on a first-come, first-serve basis.
- You are aware and understand that any custom work performed on your slide may void your factory's warrantee.
- You understand that in order to achieve a certain cut design--any existing serial number(s) and/or factory lettering may be shaved off, cut over (eliminated). We make our best effort to smooth out any remnants of factory serrations/lettering by sometimes facing down a very small amount (usually less than 0.25mm) of material from the sides/top of your slide. If you wish to have your serial number re-engraved, please make a request in the comments above (+\$20 fee).
- **Cancellations:** If after we receive your slide and you decide to cancel, you must contact us before work begins. The handling fee is \$50.00 + \$25.00 return shipping.
- Please pack your slide well and double-check the address and be certain to include the suite during shipment to us. DV8 Dynamics, Inc. will not be held responsible for damage or missing components during shipment. We suggest you insure your package & add tracking, but not required.

By signing this work order, you acknowledge your understanding and agree with the above.
